Healthy Whole Root Stock

MOST ITEMS ARE POSTPAID TO YOU

To save you additional money, we pay postage on most items. You will find these items so listed in our 1954 catalog. However, some items listed are too large to send by parcel post, such as large fruit trees, shade trees and blooming size shrubs.

Also there are a few ornamentals and hedging, and some berry plants that we list at such low prices for the high quality stock, it is impossible for us to pay the transportation charges. We send these transportation charges collect.

Some orders include large size trees, that have been sent express collect, and also some items that would ordinarily go postpaid. In order to avoid making 2 shipments, so that your stock will reach you at one time, we ship the whole order express; for this privilege we will include extra stock, our selection, to fit in with the items on your order, that have a greater value than the transportation charge.

Photo of one of our blocks of 1-yr. Cherry trees; with a start like this, these trees should grow almost anywhere.

ORTHO BRAND ROSE DUST

Protect Your Roses With Ortho Rose Dust

You will be simply amazed and delighted with the way Ortho Rose Dust kills Rose pests, such as aphids, thrips, earwigs, red spider mites, Japanese beetles and many others. Its active ingredient, lindane, is quickly toxic to a wide range of troublesome insects—and lindane packs a wallop that lasts for several days.

Easy to apply . . . Ortho Rose Dust is available in handy 8-ounce "Puffer Duster," or in bulk packages for use in the "easy action" all metal P-1 Duster. 8-oz. duster, postpaid, \$1.25. 1-lb. refills, postpaid \$1.50.

Sims Guarantee To You

We GUARANTEE everything to reach you in perfect growing condition. If for any reason this stock is damaged or does not come up to your expectations or if there has been a mistake in your order, if you will notify us within 5 days, we will replace damaged items FREE.

Each year we spend many thousands of dollars giving our nursery stock the very best of care, with the most modern methods. Therefore we are reasonably sure our stock will grow and live. However, occasionally the very best of stock fails to grow, because of local soil, weather and care conditions, which are beyond our control.

We want each of our customers to be more than satisfied. Therefore, if you have a loss of stock and will notify us before July 1st, we will replace the following year at one-half price.

Sims further GUARANTEES everything to be true to name, as described in this catalog. If found to be otherwise, we will replace free on due proof of untruthness. We will not hold ourselves liable for any amount greater than the original amount of purchase price.

Let Us Add You to Our Family of Satisfied Customers

We Have Them in Every State in the Union

10 REASONS we know why you will be pleased with our stock.

1. FRESH STOCK FROM SIMS

We are not dealers, we grow and propagate all the trees and plants we sell, thereby giving you fresher stock in better condition.

2. THREE GENERATIONS

For three generations we have been growing and fruiting thousands of plants. We pass this knowledge gained on to you in our healthy, well rooted stock.

3. ORCHARD TESTED VARIETIES

We maintain test orchards, to test each new variety as it is introduced. We offer for sale, those that have proved outstanding.

4. PERSONAL SERVICE

Our business has been built on high standards, and we aim to give personal attention to every customer. If you have any problems, write us, and we will be glad to help you.

5. MODERN EQUIPMENT

Here in our nursery we use the most modern spraying, cultivating and digging equipment, which enables us to give you better stock at lower prices.

6. BETTER, LONGER LIVED TREES

Nothing is stronger than its foundation, and the foundation of all fruit trees is the root system. Therefore we use only the strongest and best seedlings for our root stock.

7. TRUE TO NAME

All our stock is guaranteed True to Name as we hand-select our scion wood from our bearing orchards, enabling us to give you selected strains of all varieties.

8. HONEST GRADES

All our trees and shrubs are graded according to the Standards of the American Association of Nurserymen. Therefore you are assured of honest grades.

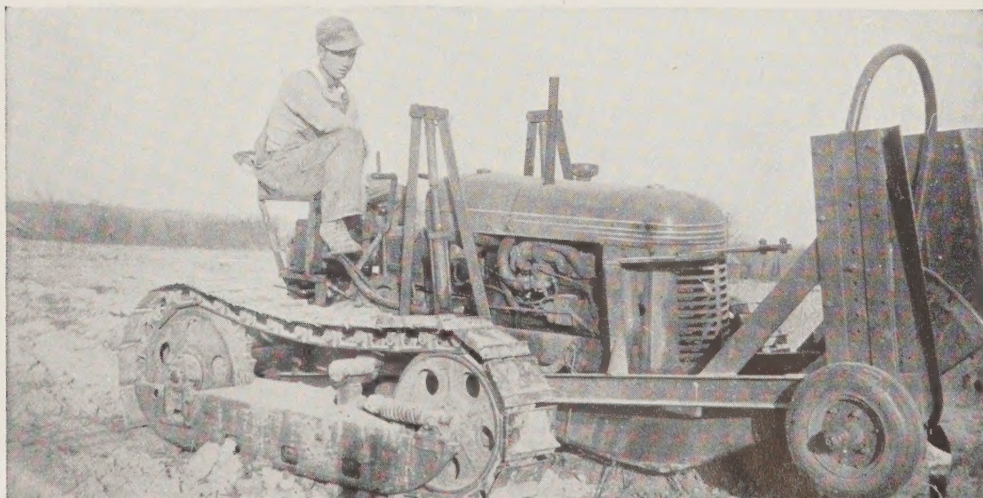

9. PACKED RIGHT AND SHIPPED RIGHT AT PROPER TIME. All orders are packed by experienced help, to reach you in the very best growing condition, and shipped to you at the proper planting time for your locality.

10. REPEAT CUSTOMERS

We get repeat orders year after year from our old customers, and also their neighbors. LET US INCLUDE YOU ON OUR LIST OF SATISFIED CUSTOMERS.

Proven Money Makers

SIMS APPLE TREES

DOUBLE RED DELICIOUS

The Answer to Apple Growers' Dreams

The Double Red Delicious was introduced several years ago, and has gained more popularity each year since it was introduced. It has the same high quality and flavor as the regular Red Delicious, but colors several weeks earlier, thereby enables the grower to pick when fruit is firm, and market is at its best. Be sure to enclose an order for Double Red Delicious in your planting this season.

YELLOW DELICIOUS

The best and most popular of all yellow Apples. Golden in color, quality, and value. One of the best for pies, sauce, or eating fresh. It is tops as a commercial Apple because of its good storing qualities, and being readily accepted on all markets. It excels all varieties in young bearing and heavy annual production.

BEACON

One of the newer, earlier fall varieties; ripens two weeks ahead of Jonathan. Bright red in color. In heavy demand by commercial orchardists because of early ripening date and being very similar to Jonathan in quality and flavor, it is being accepted on all markets.

BOUGH SWEET

Large, pale yellow, very sweet and good to eat out of hand, also fine for preserves. Holds its shape after cooking. Tree strong grower and good bearer. Ripens in August.

Yellow
Delicious

WOLF RIVER

An old variety of exceptional cooking qualities. Very large, somewhat flat in shape, greenish yellow with a bright red blush. Trees bear very young; heavy annual crops. Wolf River's large size makes it sell well on the market.

RED ROME BEAUTY

A clear, bright all red Apple, with a tough, smooth skin, which makes less bruising and also one of the best winter keepers. Its snowy white, fine grained flesh makes Red Rome very desirable for eating fresh or cooking. Trees are very young vigorous growers, producing heavy annual crops.

Red Rome
Beauty

YELLOW TRANSPARENT

The Famous Early Apple

The leading early cooking Apple of the nation. Accepted by growers and housewives alike to be the yardstick by which all early Apples are judged. Tree is an upright grower; very hardy, young bearer. Fruit medium to large with sub-acid flavor.

CHAMPION (Summer)

This is truly a champion of quality, cooking, eating, shipping and storing. Large size greenish yellow with red blush. Bears large crops each year. Always tops the market.

SIMS SCARLET STAYMAN WINESAP

The Apple with the flavor boost, a scarlet-red sport of the very popular Stayman Winesap Apple, which has gained favor with orchardists throughout the country, because of its bright scarlet color attained several weeks earlier than regular Stayman. The fruit has an even more pronounced, spicy, juicy flavor than the regular Stayman. Many leading fruit growers report from every section of the country, Red Stayman to be outstanding in color, tree vigor, size of fruit and heavy bearer.

Scarlet
Stayman
Winesap

Orchard Tested

Set Them for Pleasure
and Profit

✓ MAMMOTH MAIDEN BLUSH

An old favorite that still holds its own among commercial orchard men. Although it was introduced many years ago, it is one variety that has been studied and tested. Many varieties have been tried and discarded. But Maiden Blush is still a leader. Maiden Blush is golden yellow with a red blush. It ripens in mid-summer and cannot be beat for pies, sauce or canning. The strain of Maiden Blush we now offer is selected from an old Maiden Blush orchard. The founder, John W. Sims, planted it many years ago, and it is much larger than the common Maiden Blush.

✓ ANOKA—The Old Folks' Apple

Usually bears a light crop the following year after planting. The second year you will get a full-sized crop of fine Apples. It is one of the earliest varieties grown. Fruit is large, well colored and of excellent flavor.

✓ LODI

New Large Transparent

A new hybrid Transparent was recently released by the New York Fruit Testers Association. Lodi in our orchard has proven to be one of our best early Apples both from the standpoint of young bearing and high quality. Readily accepted on all markets to be a superior early Apple. One of its qualities is its ability to stand handling and shipping without bruising, because of its firm flesh and tough skin. Plant Lodi for home use, roadside markets, or long distance shipment.

✓ WEALTHY

A big red-striped Apple. Has been a favorite for years, and is classed with the best summer Apples. Extra good shipping and keeping qualities. Its hardiness of tree and ability to stand cold climates, and young bearing habits make it accepted in North as well as South.

SIMS DOUBLE RED JONATHAN KING OF ALL RED APPLES

A sport of the famous Red Jonathan Apple. The same juicy, spicy high quality flavor as the regular Jonathan, but attains a deep red color at least 2 weeks earlier in the season. The high color making them very desirable for either home or commercial planting. Trees bear young and are very productive and long lived.

CRAB APPLES

✓ HYSLOP CRAB

The best late fruiting Crab for pickles, preserves and jelly. Lovely pink ornamental blooms.

✓ VIRGINIA CRAB

A fine quality small red Crab Apple. Ripens mid-season. One of the very hardiest Apples often used as understock because of its unusual hardiness.

✓ HIBERNAL

Fruit of very ordinary quality, one of the hardiest, thriftiest growers, because of its Siberian origin. Recommended for understock in top-working weaker varieties. If you have had trouble with short lived trees due to winter injury, collar rot, sun scald, etc., try Hibernial or Virginia Crab. You will be well paid for your extra work, because of younger bearing, longer lived trees.

SIMS TREES ARE:

Guaranteed true-to-name, propagated right, grown right, packed right. Guaranteed to reach you in the best condition to start growth.

Blush

Anoka

Lodi

Wealthy

✓ BLACK BEN DAVIS

Sims Scarlet Red strain attains an all-over red color earlier than regular Black Ben, with fruits as large or even larger. Trees produce heavy annual crops. It is classed with the best of all winter keepers, and is accepted on all markets.

✓ WILLOW TWIG RED (New Improved Strain)

A new selected sport of Willow Twig of a larger size, very uniform and symmetrical, and unexcelled in color. Keeps in storage until May without scalding or breaking down.

SIMS SELECTED PEAR TREES

Tested Varieties, Easy to Grow

LINCOLN — Highest Quality, Blight Free

Lincoln is recognized everywhere to be one of the best flavored, easy to grow, hardiest Pears. It is almost free from blight. Bears very young. Tremendous crops of golden yellow fruit when full ripe. Compares in flavor and quality to Bartlett. Readily accepted on all markets as a canning and dessert Pear. Ripens in mid-August.

KIEFFER — Hardest and Best Keeper of All

Of all the Pears, Kieffer is a leader, because of its hardness and its ability to adapt itself to a wide range of soil and climatic conditions; from the southernmost states to Canada, Kieffer is a leader.

Kieffer rates tops in keeping quality. No other Pear can compare with Kieffer when stored in common or cold storage. The fruit is very large in size, golden yellow with a slight red cheek, very juicy. You won't go wrong planting Kieffer.

SECKEL — The Honey Pear

The little Sugar Pear everyone knows. Borne in clusters every year. Delicious honey-sweet melting flavor, wonderful for fresh use. They are also very good for pickles or preserves. Tree hardy, semi-dwarf, bountiful annual bearer.

BARTLETT — The Delicious Eating Pear

One of the very best canning, eating and marketing Pears. Sweet, tender, juicy flesh with an aroma and flavor equalled by none. Bartlett will sell on any market, even when the other varieties are not in demand.

Tree is a fast, upright grower, bears young and abundantly. Does best on fertile soil, under best cultivated conditions; one or two Bartlett trees will furnish plenty of fresh fruit for the family and surplus for canning and preserving.

SIMS PLUM TREES

Plant More Plum Trees For Future Profits

We offer Those of Recent Introduction,
And Improved Strains of Popular Varieties

UNDERWOOD — The Aristocrat of the Plum Orchard

The fruit is heart-shaped, very large, firm flesh, can be shipped to distant markets. Always demands high market price in its season. Never fails to bear full annual crop regardless of extreme winter temperatures or late spring frosts. Underwood is a late introduction, and has gained wide popularity both as a home orchard and a commercial variety. Tree is a very vigorous grower with healthy disease-resistant foliage that is often lacking in some of the better quality Plums.

Underwood

GREEN GAGE — Yields - Quality - Flavor

Extra large, roundish shape; golden yellow when full ripe; freestone. Has a sweet, tart flavor all of its own. The strain of Green Gage we propagate we believe to be far superior to any other, because of extra size, and being a perfect freestone. Tree is very vigorous, being semi-dwarf. Blossoms are self-unfruitful and should be set with other Plums to secure highest yields.

Green
Gage

SAPA — Hardy Hybrid Plum

A hardy Plum of northern origin that does equally as well in all parts of the country. Often sold in the North as Cherry Plum. Medium maroon-red fruit, colored all the way through, size will average somewhat larger than the Damsons. This fruit always sells well because of its high quality, pronounced Plum flavor, which puts it at the top of the list for canning, pies, jellies and sauce.

SIMS BLUE DAMSON — Improved Freestone

Midseason improved Blue Damson, a sport of Shropshire Damson, found in one of our orchards. We believe this to be superior to all other strains of Damson fruit. Medium size, dark purple, best for preserving or jellies. Tree healthy, vigorous grower and will bear annual crops in nearly all types of soil and climatic conditions. Every home should have two or three of this variety in their garden, back yard or poultry yard.

ABUNDANCE — Delicious Table Plum

Hardy Japanese variety free from black rot. Early ripening, large pinkish red with yellow flesh. Very sweet and unusually delicious flavor. Adapts itself to a wide range of soil and climatic conditions.

STANLEY PRUNE

Extra Young Bearing

Sweet golden flesh, freestone, beautiful purple-black skin, overlaid with rich bloom. Ripens 10 days ahead of most other Plums. Firm, does not crack, excellent quality for local or distant markets. Can be counted on to produce heavy crops every year. We recommend Stanley in commercial plantings. Stanley is one of New York Experiment Station's prize Plums.

Orchard Tested

✓ **J. H. HALE**

One of the big selling Peaches which never loses its popularity. Richly flavored, fine textured golden yellow flesh. Skin is bright yellow, deeply blushed with red, and nearly fuzzless. Extra large, round, uniform in size. Always sells at top prices for fancy eating and canning. Ripens with Elberta. Hardy as Elberta and is freestone. Semi-fertile—plant a good pollener every third row.

J. H. Hale

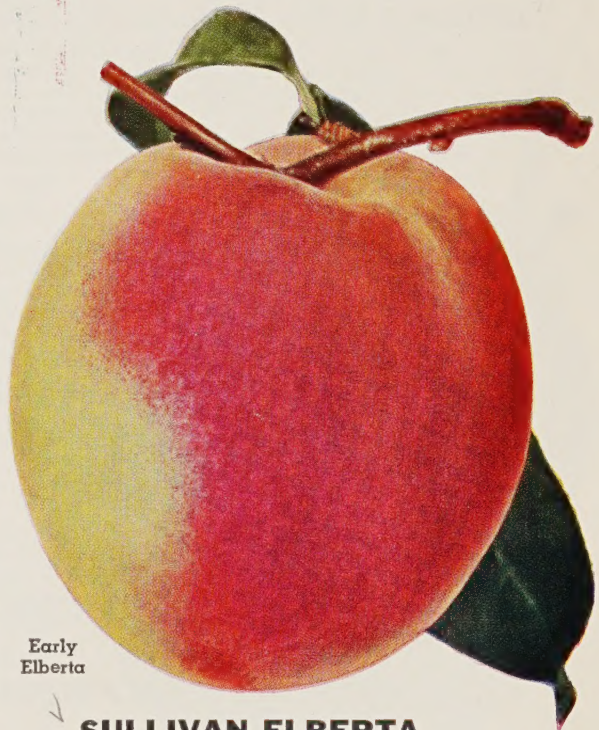

✓ **THE FAMOUS ELBERTA**
Sims Improved Strain

The Peach that sets the standard by which all varieties are judged. It still reigns supreme with housewives, shippers, and retailers. A large size freestone, rich yellow blushed with red. Rich flavored. Extra firm with fine texture. No doubt the leading shipping, canning, storing, drying and freezing Peach. Elberta is a self-pollenizing variety and a good pollener for other varieties. Ripens about the middle of August. Trees are vigorous growers and usually bear the second or third year with enormous crops at maturity.

Note: We have one of the best strains available anywhere at any price.

✓ **EARLY ELBERTA**
Our Own Bud Selected Strain

Most attractive Peach. This strain of Early Elberta has a more pronounced red blush and a trifle larger oval-shaped fruit than any other Early Elberta we have seen. Solid flesh, honey-sweet. A large yellow freestone with a bright red blush. A vigorous grower bearing young and tremendous crops. Self-pollenizing. Ripens first part of August—five to seven days before Elberta. Some of this fine strain should be included in every commercial or home planting.

Early
Elberta

✓ **SULLIVAN ELBERTA**

An early ripening red bud sport of genuine Elberta. Identical to genuine Elberta in every respect except it ripens 10 days earlier. Large yellow freestone, firm, juicy, rich, good flavor and just as attractive as Elberta and as good a shipper. Limited supply. Order early.

✓ **SNYDER ELBERTA**

The new light yellow Elberta that made Southwest Missouri famous. Ripens just before Elberta. Light yellow with red blush, wonderful flavor, even firmer and better shipper than Elberta. Limited supply. Order early.

✓ **REDHAVEN**

**Earliest, Dazzling, All-Red, Self-Pollenizing
Peach—Quality Unsurpassed**

Redhaven matures very early, about a month before Elberta. Fruit medium in size, of slightly elongated shape, and almost completely covered with a brilliant red color. Skin is smooth and tough. Flesh yellow, firm, fine textured, sweet, and of good quality. A perfectly fertile variety and freestone. It is safe to classify Redhaven as the outstanding early Peach of tomorrow. Be the first in your locality to possess this rare and most profitable variety.

Red-
haven

PEACH TREES

Pay Big Dividends

✓ **BELLE OF GEORGIA** *Best White Freestone*

The Queen of flavors. Best white midseason freestone. Color creamy white with a bright red cheek. Ripens a day or two before Elberta. There are very few commercial orchards that do not have a good sized block of "Belles" in them, even though they do not grow any other white Peaches. Experience has shown them to be of high quality and a money maker. In demand on all markets because it is no doubt the firmest, best quality white Peach of its season. Like most white Peaches, Belle of Georgia is hardy in the bud. Will stand colder temperatures than other varieties and are self-pollinizers. Be sure to include Belle of Georgia whether your orchard is home or commercial.

✓ **MAMMOTH WHITE HEATH CLING**

Best Strain of the Well Known White Cling

Fruit tender, melting, juicy, luscious, firm. Does not bruise easily. Tree is strong, vigorous grower. Like most white Peaches it is hardy and buds will stand lower winter temperatures. Ripens about forty days after Elberta. A wonderful Peach for canning, pickles and preserves. A few should be planted in all home and commercial orchards. Fine for local market and roadside stands.

✓ **NEW TRIAGEM**

Another good early yellow, large freestone, recently introduced by the New Jersey Experimental Station. Yellow overlaid with deep red. Solid, good shipper. We have tested this variety and have found it one of the best. Always brings top prices on the market, because it ripens a few days earlier than Hale-Haven. Limited supply. Order early.

✓ **GOLDEN JUBILEE** — *What a Peach*

Golden Jubilee has everything hoped for, for so long. Commercial Peach orchardists for a century have been looking for an early Peach of high quality, fine flavor, firm texture, yellow freestone.

✓ **DIXIRED**

Medium size, yellow clingstone. Flesh firm but melting; good flavor. Acquires its attractive red blush long before it is ready to pick. Promising early shipper.

✓ **NEW FAIRHAVEN**

The new Fairhaven Peach is a cross between J. H. Hale and South Haven, so can't help but be a winner. It has earliness, great fruitfulness, hardiness, flavor, shipping quality, beauty of form, and wonderful color. It ripens about one week before Hale-Haven.

Fruit larger than Hale-Haven or Redhaven, even when heavily loaded. Shape nearly round. Color bright golden with attractive bright red cheek. Skin smooth and very tough. Ships exceedingly well.

✓ **HALE-HAVEN** — *Sims Original Strain*

A magnificent cross between the wonderful quality of J. H. Hale and the hardiness of South Haven. Wonderful size and color, and shipping qualities; hardy in bud and a vigorous tree. A profit-making variety you cannot afford to overlook. Ripens August 1st.

Hale-Haven

SIMS HARDY NUT TREES

Serve a Dual Purpose - Fruit and Shade

SIMS GRAPE VINES

Better Bearing Crops of Better Fruit

In planting Grapes you make an investment that will last a lifetime. Our plants are all heavy rooted disease free stock.

NEW FREDONIA

Large early Concord type Grape. An introduction of the New York Experimental Station. A strong, healthy grower. Have large full clusters of firm berries. Fine shipper. Does not weather-crack in vineyard.

NIAGARA

White midseason; best of the white varieties. Bunches of large white-greenish berries changing to pale yellow when ripe; a heavy grower and sure cropper. Very popular with commercial growers and home gardeners.

CONCORD

Most popular and widely planted variety; will adapt itself to almost any climatic or growing conditions. Large compact bunches, purplish black with a rich bloom; skin is tender but sufficiently firm to carry to distant markets. The old favorite for juice, wines, and jellies.

MOORE'S EARLY

Ripens 10 days before Concord; fancy black-purple table Grape resembling Concord in appearance but of finer quality; not quite as thrifty a grower as Concord.

CACO - RED

Beautiful large bunches crowded with big, juicy, amber-colored fruit of a very delicious sweet flavor. Rapid, strong grower, bearing young and heavily. Hardy red Grape; ripens before Concord.

SIMS CHERRY TREES

Orchard Proven

We are offering only those varieties we know to be heavy producers, and money makers.

LARGE IMPROVED MONTMORENCY

Ripens late June. Trees bear young, often two years after planting. Fruit bright clear red with sweet acid flavor, a very popular commercial variety, fine for market, home canning and preserving.

EARLY RICHMOND — A Larger Strain

Ripens early in June. Earliest of sour Cherries. Medium dark red in color; sub-acid, juicy flavor, excellent for early canning; and a dependable cropper. All our Early Richmond trees are propagated from a parent tree of exceptional quality.

ROYAL DUKE

Large, bright red, even larger than our Large Montmorency. Sure cropper, excellent quality for home or market,

one of the best. Be sure to include one with your order.

WOEHRMAN RED GIANT — The Superior Sweet Cherry

Large, dark bright red, honey-sweet, fruit ripens midseason. Bears heavy annual crops, on vigorous, upright growing tree. This Cherry is sold exclusively by SIMS, and is accepted by all as a superior Sweet Cherry. Blossoms are self unfruitful and trees should be set with Tartarian and Golden Sweet as pollenizers. Add 25c more per tree for Woehrmann Red Giant.

SIMS GOLDEN SWEET

A selected strain of yellow Sweet Cherry, mellow honey-sweet flavor. Delicious for canning and preserving.

BLACK TARTARIAN Best Commercial Sweet

Beautiful lustrous black fruit, when ripe. Matures to large delicious firm fruit that ripens early in the season. Trees are hardy and bear young and heavily. A leading shipping and canning Cherry. Excellent pollenizer for other varieties.

SIMS APRICOT TREES

For Heavy
Production

SIMS NEW VICTORIA GIANT — Quality, Flavor, Productiveness

Our own new introduction. Very hardy, late bloomer, escapes the late spring frosts. Bears heavy crops when only two or three years old. Large as small oranges, deep yellow blush, with red color; freestone. In all our

years of fruit growing we have never seen any Apricot with as fine a quality. Be sure to include one or two trees with your order. Victoria will surpass your wildest dreams of Apricot perfection.

New
Victoria
Giant

SUPER APRICOT — Popular Everywhere

Fruit beautiful, light salmon color, very good quality. Trees are large, very thrifty, hardy and extremely productive. Rated by most commercial growers as the best, most widely planted variety. Because of their firm, solid fruit, which makes them ideal for shipping, and because of excellent flavor, they are accepted readily on all markets.

Sims Outstanding RED RASPBERRIES

THRIFTY GROWERS AND INCREASED PROFITS

✓ INDIAN SUMMER — Two Crops in One Year

The giant everbearing Red Raspberry. Indian Summer bears a full crop in June and another in fall. The berries are long, deep, large and red—small cavity. Very rich in flavor. Plants grow tall, are hardy and thrifty. In production they will equal the best. Firm enough for shipping.

✓ SUNRISE Extra Early, Extra Quality, Extra Profits

The extra early Red Raspberry. Here in North Missouri ripens earlier than any other Raspberry—about two weeks before Latham—which always insures the highest market prices. U. S. Department of Agriculture says of Sunrise: "Of most importance from the standpoint of the practical grower, perhaps are the hardiness and resistance to disease of the plants, the earliness and large size of the berry." Top the market with Sunrise.

Indian Summer

✓ LATHAM Large Size and Heavy Yielder

The most profitable Red Raspberry. Thrifty, healthy, hardy, easy to grow. A money maker if grown commercially or as a tasty treat in home garden. Often yields as high as 500 crates to an acre.

SIMS PURPLE RASPBERRIES The New Hybrid Raspberry

✓ SODUS is a cross with the Black and Red Raspberry. New Purple Raspberry introduced recently by the New York Experimental Station. Hardier and thriftier grower than either Black or Red Raspberries, and the fruit surpasses either in flavor. Perhaps the largest Raspberry grown. Often twice or three times as large as Blackcaps. Extra heavy bearer with long picking season. Never shows winter injury in the most severe winters. The color is a deep reddish purple with a rich bloom.

↘ **BRISTOL BLACKCAP**

This new variety is rapidly growing in popularity as the best midseason Blackcap, both for home and commercial planting. A vigorous grower that produces tremendous crops. The berries are large, jet-black, firm, sweet, almost seedless and of unsurpassed flavor. A hardy, healthy grower, does well over a very wide territory, doing well even in sections of the South like Oklahoma.

DISEASE FREE

All our Raspberries have been twice state inspected for disease. For increased production, plant only disease-free plants.

Plant Them for Increased Production**

↘ **CUMBERLAND — The Universal Favorite**

Most popular Blackcap. Its record has come down through the years, and it is recognized everywhere as the best and one of the most profitable Blackcaps. Endorsed and grown as the leader everywhere. The plants are healthy, vigorous growers, throwing out stout, well branched canes that produce immense crops of beautiful, glossy fruit. The fruit is large and firm, and will carry to distant markets in good condition. Rated as one of the most delicious Blackcaps. Midseason.

↘ **NEW MORRISON**

Mammoth Midseason Blackcap

A lustrous black color. This black beauty is King of all midseason Blackcaps. This variety originated in Ohio and the original planting, which is 15 years old, is disease-free and still produces heavy annual crops. Morrison has everything ever hoped for in a Black Raspberry: Large size, firm, solid fruit, thrifty grower, disease resistant canes, and fruit so attractive that these berries sell on sight. You will make no mistake in setting Morrison whether for home or market.

SIMS STRAWBERRIES

Sims High Yielding Varieties for Home or Market

✓ **PREMIER** — A Sure Money Maker

Leading Most Popular Early Strawberry

The most valuable, widely planted, early Strawberry; very frost resistant; healthy, strong grower; thrives on many different soils; holds all records for heavy production and big profits. Firm enough for truck shipments and local markets. Our leading variety.

✓ **NEW GIANT ROBINSON** — *The Modern Main Crop Berry*

The Robinson originated in the heart of the Strawberry growing section of Michigan, and is rapidly growing in popularity throughout the country. Robinson always brings a premium on the market due to its extra large size, scarlet-red color and unusual firmness. The fruit has a delicious, sweet, real Strawberry flavor. It ripens in midseason. Is a vigorous grower, always making a good fruiting row.

PREMIER AND ROBINSON PRICES

25	50	100	500	1000	2000
\$1.35	\$2.35	\$3.20	\$9.50	\$16.50	\$31.50

✓ **BELLMAR** (Early)

This is another of the newer varieties. One of the surest indications of popularity is the increasing demand each year for plants of Bellmar. Bellmar in growth resembles the Premier with the exception that it will make more plants than the Premier. The extra large berries are very attractive, have a dark red color that extends clear through to the center of the berry. The fruit stands up well in shipping.

POSTPAID			EXPRESS COLLECT		
25	50	100	500	1000	2000
\$1.30	\$2.20	\$3.20	\$9.50	\$16.00	\$31.00

✓ **FAIRLAND**

Fairland (USDA 3205) just recently released for introduction by U. S. Department of Agriculture, is outstanding in so many fine respects, its paramount feature being **disease resistance**. Healthy, vigorous grower. Heavy dark green foliage protects the flowers borne on short stalks making it **frost resistant, too**. Equals Premier in productivity. Medium large, bright red berries have a glossy finish. Ripen uniformly—a few days earlier than Premier, and are somewhat firmer. Flavor slightly tart. One of the finest for fresh freezing.

POSTPAID			EXPRESS COLLECT		
25	50	100	500	1000	2000
\$1.40	\$2.30	\$3.20	\$9.60	\$16.25	\$31.50

✓ **BLAKEMORE**

The Ideal Commercial Variety

Most widely planted berry in the U. S. A. A cross between Premier and Missionary. Berries of medium to large size, bright red with extra good flavor. Its firmness and long keeping qualities make it very popular for shipment to distant markets; thrifty grower, always makes a heavy fruiting row.

✓ **SENATOR DUNLAP**
The Old Standby Variety

The best flavored Strawberry of them all. The old home garden standby; can be grown successfully with a minimum of care. It is a favorite with housewives because of its superb sweet flavor and canning qualities.

Superfection

NEW ARMORE

Most recent introduction by University of Missouri, Blakemore X Aroma cross. Large size, firm fruit, which is dark red all the way through. Even though it is an extra large Strawberry, it does not have a core or cavity in the center. Holds up extra well in shipping. All the flowers will mature fruit, and will hold size well until end of season. Ripens 10 days later than Premier. All reports from growers are very enthusiastic. We believe this berry will become a great commercial variety.

SHRUBS To Beautify Your Home

Tartarian Honeysuckle

Lilac, Persian Purple

ALTHEA (Rose of Sharon)

Small tree-shrub, profusion of flowers from early July until frost.

Colors: double red, double white, or single pink.

	Each
2-3 ft.	\$0.80
3-4 ft.	1.00

BEAUTY BUSH

Handsome flowering shrub; upright in growth. Lovely, bell-shaped, pink flowers are borne in long clusters all along the branches. Blooms in great profusion in June; has excellent foliage. A splendid ornamental; attractive in all seasons. Hardy; does well in shade, grows rapidly.

	Each
3-Yr., Field-Grown, Heavy Bushes	\$1.20

Althea

Beauty Bush

FORSYTHIA INTERMEDIA

GOLDEN BELL. Earliest shrub to bloom. Bright yellow flowers seem the spirit of spring, opening before the leaves appear. Grows to 6 to 8 feet but may be pruned as desired. Branches slightly drooping. Dark green leaves.

	Each	2	4
King Size, 2-3 ft.	\$1.45		
2-Yr., Heavy85	1.60	3.00

WEIGELA ROSEA (Florida)

Beautiful trumpet-shaped, rose-pink flowers are borne in thick clusters all along each branch. Blooms are produced in great profusion during May and June; excellent for cut flowers. Shapely pointed, green leaves. Grows 4 to 5 feet tall, may be trimmed as desired.

	Each
2-Yr., Field-Grown Bushes	\$0.85

PERSIAN LILAC

A dwarf variety with slender, arching branches tipped with beautiful panicles of purple flowers. Blooms more profusely than common variety, and does not sprout so from the roots. Desirable for grouping and hedges.

	Each
2-Yr., Field-Grown Bushes	\$0.95

TARTARIAN BUSH HONEYSUCKLE

Its foliage is delicately cut and attractive, and its bright pink flowers are followed by scarlet berries. Frequently used for plantings along the base of walls or porches and for hedging where it will reach an ultimate height of 9 to 10 ft.

	Each
3 to 4 ft., specimen plants	\$0.95

LILAC, Common

Purple or white. The well known fragrant variety.

	Each
2-3 ft.	\$0.90

CALYCANTHUS, Sweet Shrub

Curly sweet scented, brownish purple flowers borne in the center of leaf-clusters are most unusual. The large green leaves, deeply veined, help still more to give an unusual appearance. Grows 5 to 7 feet high.

	Each	3
Nice 18-24 in. Bushes	\$0.90	\$2.60

PUSSY WILLOW

The French Pussy Willow with its large, fuzzy, grey catkins is a welcome sight in early spring. Make charming bouquets. Tall growing with attractive green foliage; trim as desired. Hardy.

SIMS COLORFUL ORNAMENTAL VINES

CLEMATIS

Jackmani. When you see this plant, covered with hundreds of purple blooms, you will know why it is called the Queen of all vines. The flowers are large, 4 to 6 inches across and produced freely all summer. The most colorful and attractive of all.

Paniculata. Easy to grow, perfectly hardy, very rapid grower, excellent for porch shade, trellises and arbors. Sweet, fragrant, star-like flowers in late summer until frost.

Texensis. SCARLET-RED CLEMATIS. Brilliant urn-shaped flowers with large, thick petals; blooms profusely from late June until frost.

CLEMATIS PRICES

All varieties heavy, field-grown transplants.

Each\$1.35

3 for 3.75

Pyramidal Arbor-Vitae

Sims Hardy Decorative EVERGREENS

For Year Round Beauty

ALL EVERGREENS BALLED AND BURLAPPED. THEN SHIPPED VIA
RAILROAD EXPRESS COLLECT OR TRUCK FREIGHT.

PYRAMIDAL ARBOR-VITAE

This formal, compact pyramid is densely covered with lacy, bright green foliage. This deep green evergreen seldom measures over 2 to 3 feet in diameter at the base. Has a matured height of 12 to 15 feet. Can be trimmed to any desired height. Hardy everywhere, except in dense shade.

Each
2 to 3 ft.\$5.25

Dwarf Alberta Spruce

CHINESE ARBOR-VITAE

This Oriental Arbor-Vitae is an introduction from China which has proven very hardy. It has a flat, fan-type leaf with a rich green color. The leaf clusters face outward edgewise. A strong, rapid grower which can be used as windbreaks or clipped any desired shape or size.

Each
24 to 30 in.\$3.00

IRISH JUNIPER

Dwarf growing Juniper, erect and slender, formal and columnar in form. Has dense bluish green foliage. Reaches a height of 6 to 7 feet at maturity. Never over 1½ feet in diameter. Most striking spire-like shape of all the evergreens. This column-like Juniper is ideal for gardens, beds and formal grounds.

Each
2½-3 ft.\$4.50
3-3½ ft. 5.75

SPINY GREEK JUNIPER

Fine blue foliage. Grows medium height. Ideal for specimen or group planting with larger evergreens.

Each
18 to 24 in.\$3.95

Spiny Greek Juniper

Hicks' Yew

DWARF ALBERTA SPRUCE

This is one of the most unusual evergreens. It is of extremely close pyramidal growth, thickly covered with short, close-set, twiggy branches, and clothed in grass-green leaves.

It is very hardy, it prefers a shady moist location. Very good for low plantings, terraces, rock gardens, etc.

Each
12 to 15 in.\$4.25

PFITZER JUNIPER

One of the most popular type evergreens. Beautiful dark green foliage. Succeeds almost anywhere.

Each
18 to 24 in.\$4.75
24 to 30 in. 5.50
30 to 36 in. 6.75

NORWAY SPRUCE

Rapid grower. Dark green foliage, makes beautiful lawn specimen tree.

Each
4 to 5 ft.\$7.25

ANDORRA JUNIPER

Low growing, spreading dwarf evergreen. Foliage silver-green in spring, turning to rich purple-bronze in fall. One of the easiest evergreens to grow.

Each
18 to 24 in.\$4.25

JUNIPER GLAUCA HETZI

A spreading type evergreen decidedly blue, rapid in growth, stands shearing well, closely resembles the Pfitzeriana in appearance and growth habits.

Each
18 to 24 in.\$4.75

HICKS' YEW

(*Taxus cuspidata* Hicksi)

Another form of Yew that is very similar to the Irish Yew, but is a much faster grower. The branches ascend almost vertically, generally growing with many stems. Its rich dark glossy green makes it much more attractive than Arbor-Vitae or Junipers.

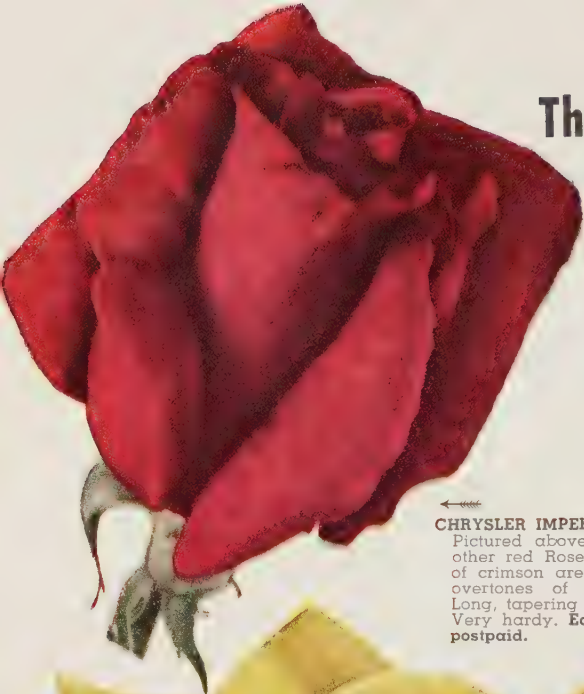

Each
12 to 18 in.\$3.75
18 to 24 in. 5.50

Pfitzer Juniper

The Newest and Best in Patented Roses

A A R S WINNERS

← **CHRYSLER IMPERIAL.** (Patent No. 1167) Pictured above. Unmatched by any other red Rose. Its vivid, rich tones of crimson are enhanced by darker overtones of glowing oxblood-red. Long, tapering buds on sturdy stems. Very hardy. Each \$2.75; 3 for \$7.20, postpaid.

→ **PEACE.** (Patent No. 591). Ovoid buds are golden yellow etched with pink as they open, color changes from canary-yellow to pale golden, iridescent cream. Petals are edged with apple-blossom-pink that deepens as the flower slowly opens to glorious 5-inch blooms. A.A.R.S. Award for 1946. Each \$2.50; 3 for \$6.60.

↑ **HIGH NOON.** (Patent No. 704). The intense shade of clear shining yellow displayed in the medium sized, well shaped buds cannot be found in any other Rose today. High Noon is the winner of the 1948 Regional All-America Award for the Pacific Coast and Southern States. Each \$2.50; 3 for \$6.60.

→ **MOJAVE.** (Patent No. 1176). NEW A.A.R.S. Award Winner. A Charlotte Armstrong cross retaining many of the fine plant characteristics of its parent along with the slender bud of that variety. The color is a blend of salmon, apricot and orange, and occasionally in cool weather the salmon changes to red blended with the other two colors. Each \$3.00; 3 for \$7.95.

↓ **SHOW GIRL.** (Patent No. 646). Deep pink exhibition Rose; one of the best. Flourishes in all climates. Lovely buds on long stems. Each \$2.00; 3 for \$5.25, postpaid.

↓ **MIRANDY.** (Patent No. 632). First place winner of All-America Rose competition for 1945. A strong, free branching plant producing large, long-pointed ovoid buds of rich dark red with black shadings, opening to chrysanthemum-red. The flower of 50 petals displays new beauties of form and is long lasting. Marvelously fragrant. Each \$2.25; 3 for \$6.00, postpaid.

Mimosa

MIMOSA

Beautiful - Distinctive

A beautiful tree with tropical like foliage. Its feathery foliage forming an umbrella shaped top, which is of a beautiful light green and in summer it is covered with a profusion of pink fluffy blossoms.

Each
4 to 5 ft., postpaid\$2.25

For Enduring Beauty

HOPA Flowering Crab

Beautiful bright red flower buds opening into fragrant pink flowers are produced on this popular low growing ornamental tree. Beautiful foliage is maroon colored. In mid-summer small red Apples are produced which make very fine jelly. Trees are hardy, thrive in any soil.

Each 2
4-5 ft.\$2.25 \$4.30

Hopa Crab

THUNDERCLOUD

(Purple-Leaved Plum)

We consider this new variety an improvement over the more common types, particularly as to color. The foliage is a brighter, rich purple which holds up throughout the season. Thundercloud makes a fine contrast among other trees and shrubs. Try a planting this spring.

Each
4 to 5 ft.,\$1.85

Thundercloud

RED FLOWERING PEACH *Symbol of Spring* (Earliest to Bloom in the Spring)

As one eagerly waits for spring, Red Flowering Peach bursts forth with countless rosy blooms that appear along the numerous, wide spreading branches; so thick are the flowers that the tree appears as a small, red cloud. It is one of the most attractive of the low-growing, flat-topped trees, attains a height of about 15 feet at maturity. Flowers appear before the tree leafs out in spring. Due to the extreme hardness of the wood, the tree is usually very late in leafing out.

Each
3 to 5 ft.\$1.65

NEW CRIMSON KING MAPLE

(Plant Pat. No. 735)

Truly the best Red Maple grown. A great improvement over Schwedler's Purple Leaf Maple. In the spring the foliage is a much richer red and Crimson King carries this deep red foliage through the entire season. Very hardy and easy to grow. Reaches the height of approximately 50 feet at maturity.

Each 2
3-4 ft.\$3.50 \$6.50

PURPLE FRINGE (Smoke Tree)

This makes a magnificent large shrub, up to 10 to 12 feet tall, around 6 feet wide. In July-August it is covered with feathery flowers like a cloud of lilac-purple smoke. It has a very distinctive, shiny green foliage which colors beautifully in the fall. It is a very unusual shrub which should be given room to develop and it will become more showy and attractive each passing year.

Each
Large Specimen, 5 to 6 ft.\$4.00

A beautiful fast growing Maple, with compact, sturdy branches and large, dark green leaves. One of the best.

	Each	2
4 to 5 ft.	\$1.50	\$2.75
5 to 6 ft.	1.75	3.25
6 to 8 ft.	2.25	4.25

NORWAY MAPLE

Typical Maple leaves, large and bright. Green fading to gold in the fall. Growth is fast; branches and foliage are thick and compact. Attains a height of 50 feet when full grown. Norway Maples are at home in the mountains, but will thrive at any elevation or on any soil in this country.

	Each	2
5 to 6 ft.	\$2.50	
6 to 8 ft.	3.25	

THORNLESS HONEY LOCUST

The Thornless Honey Locust is one of the best trees for the western part of our Great Plains Region. It is extremely hardy, drought resistant and seems to thrive in either poor or rich soil. It is rapid growing and develops into a large stately tree with dark green luxuriant foliage. Its dark colored branches are strong and resistant to storms. Has few insect enemies and is not affected by sudden freezes.

	Each	2
4 to 5 ft., Branched	\$1.95	\$3.75
5 to 6 ft., Branched	2.25	4.30
6 to 8 ft., Branched	2.95	5.50

EUROPEAN MOUNTAIN ASH

A real ornamental tree, has white flowers in May and June, followed by loads of scarlet berries that stay on till after Christmas.

	Each	2
4 to 5 ft.	\$2.25	\$4.25

CUT-LEAF WEeping BIRCH

Beautiful white bark with weeping branches and dainty lace-like foliage. Not too large for lawns or gardens.

	Each	2
4 to 5 ft.	\$3.25	

Dolgo Crab

DOLGO CRAB

Here is the finest of the Crab Apples—an exceedingly lovely ornamental fruit tree that is not too large to be planted in a yard. It is a beautifully shaped tree that in the spring is covered with a cloud of pinkish blossoms, and later with brilliant flaming red fruit. The fruit jells perfectly — makes a clear, red jelly of delicate, delicious flavor. The Dolgo Crab is a strong, small tree that resists disease and grows rapidly.

	Each	2
3 to 4 ft., postpaid	\$1.75	

EUROPEAN WHITE BIRCH

A graceful tree with slender branches and silvery white bark. Beautiful when planted near evergreens.

	Each	2
4 to 5 ft.	\$2.25	\$4.30
5 to 7 ft.	2.65	5.00

WHITE CLUMP BIRCH

A rare form of the beautiful European White Birch. Growing in clumps of 2 or more trunks on one root system. The bark turns white after two or three years, and stays white winter and summer. Beautiful when interplanted with evergreens. Grows 25 to 30 feet tall and are perfectly hardy.

	Each	2
3 to 5 ft.	\$2.50	
2 Trunk Clumps	\$2.50	
3 Trunk Clumps	3.00

Weeping Willow

Blaze is Outstanding
for Arbor or Trellis

SIMS HARDY CLIMBING ROSES BLAZE

An ideal pillar Rose with clusters of brilliant scarlet flowers covering the plant in June and repeat intermittently all season. Holds this bright color in the hottest sun. Plant in good soil as the more it grows, the more it blooms. If you cut off the old flowers, new bloom shoots will grow from the first eye below the old flower cluster.

PAUL'S SCARLET

Large, vivid scarlet-red, semi-double flowers freely produced in clusters on much-branched canes. It is a strong grower and very hardy; healthy foliage. The very best in climbing Roses.

CLIMBING RADIANCE

(Everblooming). The loveliest red buds and open blooms are produced on this big, strong growing plant. Flowers are often larger and stems longer than on the bush variety. Possesses a very rich fragrance.

NEW DAWN

Covered each spring with masses of fragrant blush-pink flowers, it continues to bloom until the first hard frost. Very vigorous and hardy, too.

CLIMBING P. S. DUPONT

The climbing form of this shining yellow Rose, long famous for its bud form, has fast become a favorite in many Rose gardens. It will produce hundreds of magnificent blooms in the spring, each one reflecting the golden sunshine, fine for cutting.

CLIMBING ROSE PRICES: Each \$1.25; 4 for \$4.25, postpaid.

New Dawn

SIMS BABY ROSES FLORIBUNDAS

Fine for Borders and Beds

RED RIPPLES. Flowers semi-double, open, slightly fragrant, oxblood-red to carmine. Each \$1.25; 3 for \$3.20.

FLORADORA. Sparkling coral-orange-red. Prolific continuous bloomer, with best bloom in early June and late fall. Bush 2½ to 3 ft. Each \$1.25; 3 for \$3.20.

SUMMER SNOW. (Pat. No. 416). The most prolific of white Floribundas with great "drifts" of beautiful large clusters like mounds of snow. \$1.50 each; 3 for \$3.90.

RED PINOCCHIO. (Pat. No. 484). The 3½-inch flowers are borne in large, long lasting clusters. Color is rich carmine, non-fading. \$1.50 each; 3 for \$3.90.

MA PERKINS. (Pat. No. 1143). 1953 All-America Winner. Translucent coral touched with yellow at the base in the bud stage, a glowing coral-snell-pink when in bloom. \$2.25 each; 3 for \$6.00.

FASHION. (Pat. No. 789). Brilliant, luminous coral flowers are overlaid with gold, enticing "old rose" fragrance. Blooms continuously from June until frost. \$2.00 each; 3 for \$5.00.

Goldilocks

EVERBLOOMING POLYANTHAS

The Hardy, Bush Baby Roses

KATHARINA ZEIMET. Always covered with clusters of dainty little double white Roses and fine cut foliage.

GOLDEN SALMON. A vivid salmon colored, heavy blooming variety. Has great masses of bloom all summer and continues until ground is almost frozen.

IDEAL. The deep black-red Baby Rambler. Blooms so profusely it hides the leaves. Fine for filling stations, beds and cemeteries.

POLYANTHA PRICES:
Each \$1.25; 3 for \$3.20

Ma
Perkins

GOLDSLOCKS. (Pat. No. 672). Rich golden yellow, buds are ovoid in shape, long lasting, hardy and vigorous. \$1.50 each; 3 for \$3.90.

Red Pinocchio
